 V-Cast / Verizon*

* Companies marked with an asterisk are selective in what they ingest, so not all titles are guaranteed to be on these sites.

In addition to the digital and ringtone retailers listed above, we make each title available at over 300 physical Christian retail sites around the country through in-store kiosks. These kiosks allow customers to browse the catalog by name, genre, etc., and transfer MP3s to their own flash drive, burn MP3s to a data CD, or burn the album directly to CD in standard CD format. The customers can even print artwork for the CD on the spot. In this way, each title is “virtually” in stock at over 300 Christian retail sites (and growing) across the country.
