

# *CLG Distribution*

Established in 2006, CLG offers distribution solutions for independent artists and labels at every level. We understand the needs of the indie music community because many here at the company are musicians and have faced the same challenges as those we work with. We have a passion for music and for the talented artists striving to break through.

Digitally distribute your music to all the stores that truly matter including iTunes, AmazonMP3, Google Play, Spotify, Rhapsody and many more. Unlike many of our competitors, our service level goes above and beyond the ordinary. If you need to get your single or album up quickly, we can expedite the process and typically have it live on iTunes within 48-72 hours (excluding weekends). We're even able to monetize your YouTube content as part of our normal service. And, for Christian artists, we reach specific destinations which the majority of distributors can't or don't.

In an age of shrinking digital sales due to streaming sites like Spotify, Pandora and YouTube, CD sales are an important source of income for independent musicians. Through CLG Distribution's top three distribution plans, your music is also available to over 15,000 brick-and-mortar record stores worldwide (provided you have CDs to sell), as well as online through premiere retailers including Amazon.com, Best Buy, FYE, Target, Barnes & Noble, K-Mart, Sears and other big-box retailers. Physical distribution is available with the "Essential" Plan for a small fee.

Titles distributed through all CLG Distribution plans are marketed to digital retail sites. Our goal is to get your album displayed in featured sections and places of discovery on iTunes, AmazonMP3 and elsewhere. This includes new release sections (like the "New & Noteworthy" section on iTunes) and special feature and/or seasonal programs (like the "March is Metal" feature on AmazonMP3).

CLG MUSIC & MEDIA | DISTRIBUTION SERVICES
