

RODERICK NEAL

When you meet Roderick Neal, you find out what humbleness really is. Coming off the success of his debut CD entitled "Right Place" Roderick Neal has returned to follow it up with his national sophomore release, "The Deliverance Anthem." Jerrvals Records and myself have crafted this project together very carefully. To produce a second CD, we knew it had to be polished. We started by hiring Stellar Award winning and Grammy nominated Producers: MVP Productions. We knew their knowledge of music production could give this CD the "Big Sound" we were looking for. Personal life experience is what fueled this album. Laying down pride to allow others to bring their God given talent to the project, gives this CD it's character. Being obedient to the Lord gives this CD it's success..
