VOL...

"Verge Of Life taking you to the Pinnacle of a Spiritual Experience."

Our Story

Verge of Life consists of two young brothers, Minister Vincent Gorman and Eric Radford. Together they form VOL. With strong gospel roots, these young brothers were destined to be in gospel music. With God as their foundation, they minister the love of Christ through music. Minister Gorman grew up in Minneapolis, Minnesota. A former singer of the nationally recognized R&B group NEXT, Vince grew in Christ and began to spread the gospel to his peers. Eric Radford grew up in Chicago. A former gang member and drug dealer, he also grew in the love of Christ and began to focus on bringing the youth to Christ through music. He formed Gospel Edition in Houston, Texas. From there, Vince and Eric began VOL and have been ministering the Word of God through gospel music since then.

Praise Reports

"On this album, the immensely gifted R&B (Rhythm & Praise) duo of Eric Radford and Vince Gorman from Minneapolis deliver some of the most incredible urban contemporary gospel offerings available on the market. This is the real thing."

Stan North from GospelFlava.com

"I think this cd is awesome and the vocals are very moving, very professionally done with the spirit in every song"

Elisha Parrish, Music Director for Allen & Allen
