Formed in mid-2005, WITH BLOOD COMES CLEANSING have been impressing audiences with their intense live performances and well-crafted metallic tunes from the beginning. With a straight forward focus on their message, set to the sound of pummeling guitar riffs and powerful vocal deliveries, it's no wonder WITH BLOOD COMES CLEANSING have earned such a solid reputation in so little time.

As the band added the strong-throated Michael Sasser on vocals, they recorded a six song demo and soon caught the attention of Blood & Ink Records, who signed the band almost immediately. Within a matter of months, the band found themselves at Planet Red Studios in Richmond, VA (where such acts as BLACK DAHLIA MURDER, SCARLET, and SPITFIRE have recently recorded) working on what would become their debut full length, Golgotha. This devastating masterpiece offers a blistering and intense combination of death metal and hardcore influences unlike many are capable of creating.

Having toured throughout the U.S. already, including stints alongside BECOMING THE ARCHETYPE, IMPERIAL, and THE SHOWDOWN to name a few, WITH BLOOD COMES CLEANSING plan to continuing doing so throughout 2006. These guys are an unstoppable force and are ready to unleash their intensity to audiences everywhere.
