The Story

In this day in and time when our world and music is plagued with sex, drugs and violence. Our only hope is to give our youth the gospel of Jesus Christ. God always has a remnant and Zerubbabel is a passionate Christian rap artist who is humbled and seasoned in the scriptures. It is a fact that most will not receive the gospel besides in this form of music. Our hope is to feed them scriptures through music and bridge the gap between the church and the streets.

The new album entitled "The Remastered Project" is the heart of a servant of God. Tracks like "Worship" will have you prostrated on the floor before a Holy and Just God. "Better Dayz" is an uplifting song for women of all ages. "Confessions" deals with the wicked heart of men; it lets the listener know that no matter what they might have done, that God forgives our sins once we are in Christ Jesus and that he eagerly awaits to place the banner of salvation over us. "Still in the Race", "Legacy", "The Watchman", "My Sound" and "Struggle" are bangers that are Christ centered.
